

**October Newsletter
Sprague PreK
Mrs. Stemmer**

Our first month has passed so quickly. The children have adjusted well, are learning to follow rules, and are having fun while learning.

During the month of October, we will be discussing fall, pumpkins, and fire prevention. We will also learn about our five senses, and farm animals. We will visit the Field Street Firehouse as one of our fire prevention activities. Our October colors are orange and brown and the shape is triangle.

Open House will be October 11th from 5PM to 7PM. A note will be sent home asking your time preference. Please return the bottom section with your time selection. This will be an informative open house. I will answer questions or concerns you may have. This will not be a time for individual conferences. If you would like to meet with me, we can arrange a time. If there are any questions, please call (203) 755-0935.

Thank you for your support and generosity. You are welcome to visit our classroom at any time. If you have something you would like to share, such as an art project, read a story, etc., please call and we can arrange a time.

Mrs. Auger, and I look forward to a very rewarding and productive year.
