

Rotella PreK I  
Yellow Team

Our First Field Trip Was Fantastic!

We had perfect weather on Wednesday, Sept. 27<sup>th</sup>  
for our apple trip to Indian Rock in Bristol.

First, Kendra brought us to the benches in the orchard to teach us all about picking apples. (Remember just to tug, not to twist or yank hard.) Then, we got to pick an apple off of a tree and pick up wind-fall apples under the trees.

We filled a whole basket!!

Second, we went inside to taste four kinds of apples: Macintosh, Granny Smith, Cortland, and JonaMac. Everyone got a turn to peel, cut, core, or pass. Some apples were sweet, some were tart, tangy, and tingly and some were juicy!

Third, we went to the barn with our basket of apples. We washed them, ground them, pressed them, strained them and drank the cider! It was great!

Last we fed the leftover mash from the cider press to the sheep and cow. They loved it too. We can't wait to go back in the spring to visit the farm animals.

Mrs. Stanco & Mrs. Jacquie

P.S. Thank you to Mrs. O'Connor and Mrs. Otano for chaperoning.
