

OCTOBER NEWSLETTER

With the arrival of a brand new season and a brand new month, Mrs. V and I are excited about the learning activities and field trips we have planned for October. We will be working on our fall harvest theme and incorporating our literacy and math skills to reinforce our theme. Orange and black are our colors for the month and triangle and square are the shapes we will be reinforcing. The children will learn to make and extend all different kinds of patterns. Don't be surprised if your child starts making patterns using household items. Patterns can be contagious!!!!!!!!!!

The children have done a great job adjusting to our busy daily schedule and transitions and have been just great about remembering to bring their folders to school each day. They also have been working very hard on identifying their names and those of their friends. We will be sending home two activities over the next few weeks to help reinforce this concept at home. Maybe you can even make up a name game to share with us in our classroom.

Please remember that Thursday, October 6th is Open House. We are planning a classroom scavenger hunt and will be serving snacks and refreshments. I hope to see you all there! You know you have your 100% parent participation reputation to uphold. Thanks again for being such involved parents in you child's education.
